

# LEARNING TO KNIT

SUPPLY LIST • SPRING 2023

## KNITTING 101: THE BASICS

I am thrilled you have decided to join me in the wonderful world of knitting. Did you know that knitting is listed as one of the most relaxing practices? So not only will this craft bring you joy and peace, but you will meet some like-minded folks and learn to create your own textiles and knitwear.

For this class, I have selected what I have found are good quality, affordable products that are perfect for the beginner. Rather than send you to many different stores to get supplies, I have stocked In Between Stitches with the supplies you would need.

Even better, I have put kits together for my students with all the required supplies listed below. These class notion kits come at a discounted rate vs. purchasing the items separately. All you have to do is select the yarn color of your choice, add the notions kit, and “boom,” you are ready for the class.

You might already own some of the materials listed below, so please feel free to pick up what you are missing at In Between Stitches. Also, don't hesitate to contact me using the e-mail below if you have questions about the supplies or the class.

I am looking forward to meeting you soon.

## TEACHER

### NICOLE VIEIRA

My goal is to help people unlock their creative potential and share all I have learned on my creative journey.

I love to knit, quilt, and paint and recently started designing patterns. My other loves are chocolate, wine, jazz, and all things colorful like fabric, yarn, and paint.

Two of my favorite knitting projects are socks and sweaters, and I have been known to go for a walk and knit simultaneously.

I am a wife, mother, and grandmother to four grandbabies on the home front.
